EGYPT.

SEMI-OFFICIAL.

London, June 20.—Representations made to the khedive by the French consul general were semi-official. The Pall Mall *Gazette* believes he is neither the only nor the first consul to advise the khedive to abdicate.

CRIME AND CASUALTY.

THE HULL INQUEST.

New York, June 20.—At the Hull inquest to-day Nancey Francis, cook and wife of Bristow Francis, retold her story of the discovery of the body. She declared that she was tired of saying she had heard nothing from her husband for months. Many of her replies to counsel's cross-questioning, were both tart and humorous, exciting amusement among the spectators.

FATALLY SHOT.

Woolfville, N. S., June 20.—Bessie Harris was fatally shot by Dr. Albert DeWolf to-day. Two years ago she secretly married DeWolf, but they soon separated. DeWolf proposed a reunion, but she refused.

ACCIDENTALLY SHOT.

Cleveland, O., June 20.—Last evening, Charles Undener, about twelve yearsold, son of Prof. Charles Undener, a well-known music teacher of this city, was accidentally shot dead by Wm. Donnelly, a boy about Undener's age. The accident was caused by the careless handling of a pistol.

LODGED IN JAIL.

New York, June 20.—A dispatch from Hackensack, N. J., says Brisk Franklin a negro, husband of the cook in the Hull family, is in the Hackensack jail and will be sent to New York to-day.

FIRE.

Grimsby, Ont., June 20.—Van Dick's carriage factory and Grout's agricultural works burned to-day. Grout's loss, $40,000; Van Dick's, $15,000.

SHE GOT OFF EASILY.

WASHINGTON.

To-day's Proceedings in Both Houses of Congress.

THE LETTER CARRIERS' PAY.

Washington, June 20—The letter carriers' deficiency bill was reported back to the senate to-day and placed on the calendar. The committee struck out the entire amount $71,000, voted by the house for the payment of increased salary to letter carriers for the current fiscal year.

CONGRESSIONAL

SENATE.

Washington, June 20.—Mr. Davis (W. Va.), from the committee on appropriations, stated that the committee had not been able, in view of the state of business befor the senate, to report a resolution fixing the date of adjournment, but hoped to do so soon.

Mr. Rollins presented the credentials of Henry W. Blair, of New Hampshire, and he was sworn in.

Mr. Saulsbury, from the committee on privileges and elections, reported a resolution authorizing the committee to investigate the memorials in the Ingalls contested election case. Placed on the calendar.

Mr. Wallace presented the report of the conference committee on the judicial expenses bill, and asked its present consideration.

Mr. Conkling objected.

After discussion Mr. Wallace withdrew the report.

Messrs. Carpenter and Ingalls made speeches on the army bill.

HOUSE.

Washington, June 20.—The legislative appropriation bill was reported by the committee on enrolled bills, and signed by the speaker.

The house then went into committee on the private calendar.

California Politics.

San Francisco, June 19.—Workingmen's municipal convention, this evening, nominated C. Curtin, dry goods dealer for tax collector. Charges were preferred against the nominee for mayor, Rev. I. S. Kulloch, based on his career in Boston. Kulloch will be placed on his defense in the convention to-morrow evening.

Wirelings.

News has been received that the prince imperial, son of Napoleon Third was on June 2nd, surrounded by a band of Zulus and murdered. He was a volunteer with the British army in South Africa.

LATE CITY NEWS.

TALE OF A TRUNK.

Where a Calhoun Street Servant Girl Hid Her Offspring.

Startling Discovery This Morning.

Melia Bittener is a stout, plump young German girl, who originally hailed from Adams county. About two weeks since she obtained employment as a domestic with F. H. Horstman who lives on Calhoun street nearly opposite the cathedral. Since that time she has performed all the duties of her place regularly until this morning, when, upon being awakened, she said she was sick and unable to get up. She remained in bed until nearly 9, when she got up, dressed and went down stairs after ice. While she was absent Mrs. Horstman heard a suspicious sound, and going into the girl's room discovered a bran new baby in her trunk, the lid having been closed down. The baby (a girl) was crying quite vigorously. Melia, upon returning, was called upon to explain. She said that the baby was hers, and that it was born during the night; she could not give the exact hour. The father she said was a young man named Steinman, who had seduced her under promise of marriage and who recently deserted her and went to California. She has lived in Fort Wayne four or five years and has always borne a good character.

Mr. and Mrs. Horstman say that they had not had the slightest suspicion of the true condition of affairs.

Sheriff Terry, of Jax'n has returned home.

M. S. Downing leaves for Tiffin, O., to-morrow.

Chas. Snyder leaves for the penitentiary to-morrow.

Rev. M. Crosley returned from Rome City this afternoon.

A well known boss man is about to apply for a divorce.

A. Wilson and Miss Ella Newell were married last evening in Bloomingdale.

Miss Anna Wilson has returned to her home in Richmond after a pleasant visit to friends in this city.

The Brainard Association meets to-night in the lecture room of the Second Presbyterian Church, on which occasion there will be delivered an address by one of the members, besides the rendition of some fine vocal music.

T. C. Mays was in town to-day. He reports that the old settlers' meeting at Auburn was largely attended, there being 5,000 people on the grounds. Hons. John Morris, of Fort Wayne, Andrew Ellison, of Lagrange, and other speakers addressed the meeting. Peter Kiser was present, but refused to speak because limited as to time, as the other speakers were.

The Fort Wayne Commandery, K. T., will go to Newcastle on Tuesday, June 24th. W. W. Worthington will act as grand marshal on the day of celebration. The commanderies of Indianapolis, Richmond, Cambridge, Connersville, Brookville and Muncie will attend. Parties wishing to go to New Castle on that day can take the Dayton excursion train via the Muncie road.

A young man was arrested to-day at the instance of Henry Wiebke for trying to pass counterfeit money. The young man had a silver half dollar, a quarter and a ten-cent piece, which he offered finally for fifty cents. He claimed he got the money from Wiebke, last night, which Wiebke denies. Appearances were rather against the young man, when it was discovered that the money was genuine. The young man was then released.

The committee on public grounds and buildings will, next Tuesday evening, report in favor of the construction of city building upon the engine house property, at a cost of not to exceed $30,000. The committee consists of Messrs. Wilkinson, Welch and Reese. Considerable opposition is expected to the report, which will probably not be adopted at once. The committee will urge the necessity for a city hall, the present low price of materials and labor, and the possibility of paying a portion of the expenses by the sale of real estate now held by the city.

DR. VON MOSCHZISKER'S

Work on the Respiratory Organs.

Catarrh.—Its Speedy and Permanent Cure.

I confidently assert that but one successful method of relieving and curing it has ever been discovered, and that is the one practised by me. Testimonials of hundreds of the severest cases cured by me are in my possession.

CATARRH AND ITS CONSEQUENCES.

At the commencement of the complaint the symptoms are those of an ordinary cold. The nose is stopped up. The edges are red and swollen, there is a frequent desire to sneeze, accompanied by a discharge of acrid water, afterwards becoming thick yellowish, perhaps offensive matter. It escapes not only by the nose but passes into the throat, requiring frequent hawking, scraping and spitting for it removal, and few need to be reminded of the difficulty they have found in removing such a mass, when sticking, (as they often express it) at the back of the roof of the mouth, just where they cannot reach it. As the disease progresses, the watery portions of the discharge evaporate, and the parts are encrusted with tough green scabs or hardened lumps. One side of these green scabs is covered with grey pus, sometimes streaked with blood, or enclosing flakes of bone, which are thrown off by ulceration as the disease progresses. The breath has an excessively fetid and sickening odor, so offensive as to render the patient an object of disgust to himself, as well as others. It is terrible to what an extent the disease may progress. We have seen the bones of the nose entirely destroyed.

The nose may be filled, necessitating respiration through the mouth, causing the lungs to become weak and irritable, the voice to lose its power and musical quality, the sense of the smell becomes impaired, or entirely lost, while the sense of taste is more or less affected. Occasionally while blowing the nose, a creaking sound is heard in the ears, and hearing becomes thick or stopped up, but returns suddenly with something like a snapping sound. This may be repeated several times until hearing does not return but remains permanently injured. In other cases hearing is lost so gradually that a considerable degree of deafness may exist before the person is really aware of the fact. Either condition is often accompanied with noises in the head of every conceivable description, increasing the distress of the sufferer. The eyes are apt to become weak and irritable, and disposed to water on exposure to wind, or after slight exertion; pain more or less acute, or a feeling of pressure, is experienced over the eyes, on the top or back of the head, or in the face, memory is weakened, and the disposition rendered irritable and morose, the appetite is capricious and the stomach weak and irritable. Or, instead of following the course just described, Catarrh may assume a train of different symptoms. Instead of crusts and scabs, the discharge remains starchlike, yellow or semi-transparent, the hawking continues, the back of the throat as seen through the mouth, may be pale, of a dark red color, while its surface is studded with pimples or slight ulcers, resembling canker spots, for which they are often mistaken. The voice becomes affected, especially by exposure to cold or by over exertion; tenderness of the windpipe is felt on pressure, and a burning sensation of the throat is often felt, as the disease progresses downward. At last tightness across the chest, or a burning prickling, distressed sensation, tell us that the bronchial tubes have become diseased, and consumption soon shows itself unless the disease is arrested.

Bronchitis, Consumption,

Coming on from a neglected cold, the patient hawks, hems, and perhaps has a tickling, hacking cough. The voice becomes hoarse on over exertion. The back of the throat looks pale, dark red or cankered, but not very sore. Next comes tightness, prickling, or an uncomfortable feeling across the chest as the bronchial tubes become affected; the expectorations may be ropy or yellowish as the cough is increased and slight wheezing is detected. The neglected disease extends and the minute air-cells of which there are two millions in each lung, become affected; occasionally pains shoot through the lungs, perhaps dull distress under the shoulder blade, or collar bone; tubercals are deposited; they soften; they ulcerate; night sweats, emaciation, hectic fever, increased cough, shortness of breath, bleeding from the lungs, death. Yet every case of bronchitis, and every case of consumption can be cured if treated in time, and no one on earth can prove this statement false.

My success in the treatment of these aladies is a matter of public record and affords me the liviest satisfaction to tate that the patients treated belong to the best and most intelligent class of citizens. In the course of my practice I have had brought before me many difficult and some seemingly hopeless cases of chronic diseases. I do not assert that my success has been universal, yet I do say it has indeed been great. The cures I have achieved have been publicly vouched for in the most grateful terms by well-known parties, whose word is a guarantee of truth. Their testimony furnishes the best evidence of skill that a physician can produce.

Ayer's Cathartic Pills.

For all the purposes of a Family Physic, and for curing Costiveness, Jaundice, Indigestion, Foul Stomach, Breath, Headache, Erysipelas, Inflammation, Eruptions and Skin Diseases, Biliousness, Dropsy, Worms, Neuralgia; as a Dinner Pill, for purifying the Blood, etc., etc., they are the most effectual in their operation, acting the bowels surely and without pain. Although great in their operation, they are still the most thorough and searching cathartic medicine that can be employed: cleansing the stomach and bowels, and even the blood. In small doses of one pill a day, they stimulate the digestive organs and promote vigorous health.

AYER'S PILLS have been known for more than a quarter of a century, and have obtained a world-wide reputation for their virtues. They correct diseased action in the several assimilative organs of the body, and are so composed that obstructions within their range can rarely withstand or evade them. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases that have baffled the skill of human skill. While they produce powerful effects, they are, at the same time, the safest and best physic for children. By their aperient action they gripe much less than the common purgatives, and never give pain when the bowels are not inflamed. They reach the vital fountains of the blood, and strengthen the system by freeing it from the elements of weakness.

Adapted to all ages and conditions in all climates, containing neither calomel nor any deleterious drug, these Pills may be taken with safety by anybody. Their sugar-coating preserves them ever fresh, and makes them pleasant to take, while being purely vegetable, no harm can arise from their use in any quantity.

Woman.

By an immense practice at the World's Dispensary and Invalids' Hotel, having treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and positive remedy for these diseases.

To designate this natural specific, I have named it

Dr. Price's Favorite Prescription

The term, however, is but a feeble expression of my high appreciation of its value, based upon personal observation. I have, while witnessing its positive results in the special diseases incident to the organism of woman, singled it out as the climax or Crowning Gem of my medical career. On its merits, as a positive, safe and effectual remedy for this class of diseases, and one that will, at all times and all circumstances, act kindly, I am willing to stake my reputation as a physician; and so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under A POSITIVE GUARANTEE. (For conditions, see pamphlet wrapping bottle.)

The following are among those diseases in which my Favorite Prescription has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppression when from unnatural causes, Irregularities, Weak Back, Prolapsus, or falling of the Uterus, Anteversion and Retroversion, Bearing-down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, and Female Weakness. I do not extol this medicine as a "cure-all," but it admirably fulfills a singleness of purpose, being a most perfect specific in all chronic diseases of the sexual system of women. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, postpaid, on receipt of $1.50. It treats minutely of those diseases peculiar to Females, and gives much valuable advice in regard to the management of those affections.

(Successors to R. V. PIERCE, M. D.)

DR. R. V. PIERCE, having acquired a world-wide reputation in the treatment of Chronic Diseases, resulting in a professional business far exceeding his individual ability to conduct, some years ago induced several medical gentlemen to associate themselves with him, as the Faculty of the World's Dispensary, the Consulting Department of which has since been merged with the **INVALIDS' HOTEL.** The organization has been completed and incorporated under the name and style of **World's Dispensary Medical Association,** with the following officers: Hon. R. V. PIERCE, President; F. D. PIERCE, V. President; JOHN E. PIERCE, Secretary; LESTER B. SMITH, Treasurer.

NINE PHYSICIANS AND SURGEONS of eminence and skill have been chosen as the Faculty.

CHRONIC DISEASES of all forms come within the province of our several specialties.

LUNG DISEASES.—This division of practice is very ably managed by a gentleman of mature judgment and skill. Bronchial, Throat and Lung Diseases treated with the most successful results.

DISEASES OF WOMEN.—Especially are our facilities of a superior order for the cure of all those chronic diseases peculiar to females.

NERVOUS DISEASES—Paralysis, Nervous Debility, Epilepsy (Fits), Chore (St. Vitus's Dance), Neuralgia, and other nervous affections, receive the attention of an expert in this specialty.

NOT NECESSARY TO SEE PATIENTS.—By our original system of diagnosis, we can treat many chronic diseases as successfully without as with a personal consultation. For particulars see "People's Common Sense Medical Adviser" (1,000 pages, sent post-paid for $1.50) or "Invalids' and Tourists' Guide Book" (100 pages, 10 cents post-paid).

SURGICAL CASES.—Among the operations which we are called upon most frequently to perform, are those for Nasal Polypus, Harelip, Tumors, Fistula in Ano, Piles, Hernia (Rupture), Hydrocele (Dropsy of the Scrotum), Varicocele, Ovarian and Uterine Tumors, Calculi (Stone in the Bladder), Stricture, etc., etc. We treat successfully, by a new method without surgical operation, Cancers, Club-foot, Spinal Curvature, and other deformities. (See pamphlet entitled, "Motion as a Curative Agent," sent on receipt of 10 cents.)

CRIME AND CASUALTY.

THE HULL INQUEST.

New York, June 20.—At the Hull inquest to-day Nancey Francis, cook and wife of Bristow Francis, retold her story of the discovery of the body. She declared that she was tired of saying she had heard nothing from her husband for months. Many of her replies to counsel's cross-questioning, were both tart and humorous, exciting amusement among the spectators.

FATALLY SHOT.

Woolfville, N. S., June 20.—Bessie Harris was fatally shot by Dr. Albert DeWolf to-day. Two years ago she secretly married DeWolf, but they soon separated. DeWolf proposed a reunion, but she refused.

ACCIDENTALLY SHOT.

Cleveland, O., June 20.—Last evening, Charles Undener, about twelve years old, son of Prof. Charles Undener, a well-known music teacher of this city, was accidentally shot dead by Wm. Donnelly, a boy about Undener's age. The accident was caused by the careless handling of a pistol.

THE LETTER CARRIERS' PAY.

Washington, June 20—The letter carriers' deficiency bill was reported back to the senate to-day and placed on the calendar. The committee struck out the entire amount $71,000, voted by the house for the payment of increased salary to letter carriers for the current fiscal year.

CONGRESSIONAL

SENATE.

Washington, June 20.—Mr. Davis (W. Va.). from the committee on appropriations, stated that the committee had not been able, in view of the state of business befor the senate, to report a resolution fixing the date of adjournment, but hoped to do so soon.

Mr. Rollins presented the credentials of Henry W. Blair, of New Hampshire, and he was sworn in.

Mr. Saulsbury, from the committee on privileges and elections, reported a resolution authorizing the committee to investigate the memorials in the Ingalls contested election case. Placed on the calendar.

Mr. Wallace presented the report of the conference committee on the judicial expenses bill, and asked its present consideration.

Mr. Conkling objected.

After discussion Mr. Wallace withdrew the report.

Messrs. Carpenter and Ingalls made speeches on the army bill.

HOUSE.

Washington, June 20.—The legislative appropriation bill was reported by the committee on enrolled bills, and signed by the speaker.

The house then went into committee on the private calendar.

California Politics.

San Francisco, June 19.—Workingmen's municipal convention, this evening, nominated C. Curtin, dry goods dealer for tax collector. Charges were preferred against the nominee for mayor, Rev. I. S. Kulloch, based on his career in Boston. Kulloch will be placed on his defense in the convention to-morrow evening.

LATE CITY NEWS.

TALE OF A TRUNK.

Where a Calhoun Street Servant Girl Hid Her Offspring.

Startling Discovery This Morning.

Melia Bittener is a stout, plump young German girl, who originally hailed from Adams county. About two weeks since she obtained employment as a domestic with F. H. Horstman who lives on Calhoun street nearly opposite the cathedral. Since that time she has performed all the duties of her place regularly until this morning, when, upon being awakened, she said she was sick and unable to get up. She remained in bed until nearly 9, when she got up, dressed and went down stairs after ice. While she was absent Mrs. Horstman heard a suspicious sound, and going into the girl's room discovered a bran new baby in her trunk, the lid having been closed down. The baby (a girl) was crying quite vigorously. Melia, upon returning, was called upon to explain. She said that the baby was hers, and that it was born during the night; she could not give the exact hour. The father she said was a young man named Steinman, who had seduced her under promise of marriage and who recently deserted her and went to California. She has lived in Fort Wayne four or five years and has always borne a good character.

Mr. and Mrs. Horstman say that they had not had the slightest suspicion of the true condition of affairs.

Sheriff Terry, of Jax'n has returned home.

M. S. Downing leaves for Tiffin, O., to-morrow.

Chas. Snyder leaves for the penitentiary to-morrow.

Rev. M. Crosley returned from Rome City this afternoon.

A well known hoss man is about to apply for a divorce.

A. Wilson and Miss Ella Newell were married last evening in Bloomingdale.

Miss Anna Wilson has returned to her home in Richmond after a pleasant visit to friends in this city.

The Brainard Association meets tonight in the lecture room of the Second Presbyterian Church, on which occasion there will be delivered an address by one of the members, besides the rendition of some fine vocal music.

T. C. Mays was in town to-day. He reports that the old settlers' meeting at Auburn was largely attended, there being 5,000 people on the grounds. Hons. John Morris, of Fort Wayne, Andrew Ellison, of Lagrange, and other speakers addressed the meeting. Peter Kiser was present, but refused to speak because limited as to time, as the other speakers were.

The Fort Wayne Commandery, K. T., will go to Newcastle on Tuesday, June 24th. W. W. Worthington will act as grand marshal on the day of celebration. The commanderies of Indianapolis, Richmond, Cambridge, Connersville, Brookville and Muncie will attend. Parties wishing to go to New Castle on that day can take the Dayton excursion train via the Muncie road.

A young man was arrested to-day at the instance of Henry Wiebke for trying to pass counterfeit money. The young man had a silver half dollar, a quarter and a ten-cent piece, which he offered finally for fifty cents. He claimed he got the money from Wiebke, last night, which Wiebke denies. Appearances were rather against the young man, when it was discovered that the money was genuine. The young man was then released.

The committee on public grounds and buildings will, next Tuesday evening, report in favor of the construction of city building upon the engine house property, at a cost of not to exceed $30,000. The committee consists of Messrs. Wilkinson, Welch and Reese. Considerable opposition is expected to the report, which will grobably not be adopted at once. The committee will urge the necessity for a city hall, the present low price of materials and labor, and the possibility of paying a portion of the expenses by the sale of real estate now held by the city.

DR. VON MOSCHZISKER'S

Work on the Respiratory Organs.

Catarrh—Its Speedy and Permanent Cure.

I confidently assert that but one successful method of relieving and curing it has ever been discovered, and that is the one practised by me. Testimonials of hundreds of the severest cases cured by me are in my possession.

CATARRH AND ITS CONSEQUENCES.

At the commencement of the complaint the symptoms are those of an ordinary cold. The nose is stopped up. The edges are red and swollen, there is a frequent desire to sneeze, accompanied by a discharge of acrid water, afterwards becoming thick yellowish, perhaps offensive matter. It escapes not only by the nose but passes into the throat, requiring frequent hawking, scraping and spitting for its removal, and few need to be reminded of the difficulty they have found in removing such a mass, when sticking, (as they often express it) at the back of the roof of the mouth, just where they cannot reach it. As the disease progresses, the watery portions of the discharge evaporate, and the parts are encrusted with tough green scabs or hardened lumps. One side of these green scabs is covered with grey pus, sometimes streaked with blood, or enclosing flakes of bone, which are thrown off by ulceration as the disease progresses. The breath has an excessively fetid and sickening odor, so offensive as to render the patient an object of disgust to himself, as well as others. It is terrible to what an extent the disease may progress. We have seen the bones of the nose entirely destroyed.

The nose may be filled, necessitating respiration through the mouth, causing the lungs to become weak and irritable, the voice to lose its power and musical quality, the sense of the smell becomes impaired, or entirely lost, while the sense of taste is more or less affected. Occasionally while blowing the nose, a creaking sound is heard in the ears, and hearing becomes thick or stopped up, but returns suddenly with something like a snapping sound. This may be repeated several times until hearing does not return but remains permanently injured. In other cases hearing is lost so gradually that a considerable degree of deafness may exist before the person is really aware of the fact. Either condition is often accompanied with noises in the head of every conceivable description, increasing the distress of the sufferer. The eyes are apt to become weak and irritable, and disposed to water on exposure to wind, or after slight exertion; pain more or less acute, or a feeling of pressure, is experienced over the eyes, on the top or back of the head, or in the face, memory is weakened, and the disposition rendered irritable and morose, the appetite is capricious and the stomach weak and irritable. Or, instead of following the course just described, Catarrh may assume a train of different symptoms. Instead of crusts and scabs, the discharge remains starchlike, yellow or semi-transparent, the hawking continues, the back of the throat as seen through the mouth, may be pale, of a dark red color, while its surface is studded with pimples or slight ulcers, resembling canker spots, for which they are often mistaken. The voice becomes affected, especially by exposure to cold or by over exertion; tenderness of the windpipe is felt on pressure, and a burning sensation of the throat is often felt, as the disease progresses downward. At last tightness across the chest, or a burning prickling, distressed sensation, tell us that the bronchial tubes have become diseased, and consumption soon shows itself unless the disease is arrested.

Bronchitis, Consumption,

Coming on from a neglected cold, the patient hawks, hems, and perhaps has a tickling, hacking cough. The voice becomes hoarse on over exertion. The back of the throat looks pale, dark red or cankered, but not very sore. Next comes tightness, prickling, or an uncomfortable feeling across the chest as the bronchial tubes become affected; the expectorations may be ropy or yellowish as the cough is increased and slight wheezing is detected. The neglected disease extends and the minute air-cells of which there are two millions in each lung, become affected; occasionally pains shoot through the lungs, perhaps dull distress under the shoulder blade, or collar bone; tubercals are deposited; they soften; they ulcerate; night sweats, emaciation, hectic fever, increased cough, shortness of breath, bleeding from the lungs, death. Yet every case of bronchitis, and every case of consumption can be cured if treated in time, and no one on earth can prove this statement false.

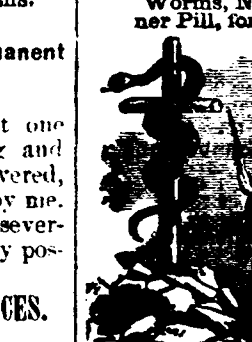

My success in the treatment of these maladies is a matter of public record and affords me the livliest satisfaction to state that the patients treated belong to the best and most intelligent class of citizens. In the course of my practice I have had brought before me many difficult and some seemingly hopeless cases of chronic diseases. I do not assert that my success has been universal, yet I do say it has indeed been great. The cures I have achieved have been publicly vouched for in the most grateful terms by well-known parties, whose word is a guarantee of truth. Their testimony furnishes the best evidence of skill that a physician can produce.

Ayer's Cathartic Pills.

For all the purposes of a Family Physic, and for curing Costiveness, Jaundice, Indigestion, Foul Stomach, Breath, Headache, Erysipelas, Rheumatism, Eruptions and Skin Diseases, Biliousness, Dropsy, Tumors, Worms, Neuralgia; as a Dinner Pill, for purifying the Blood.

Are, [illegible] effective [illegible] congenial purgative ever discovered. They are mild but effectual in their operation, moving the bowels surely and without pain. Although gentle in their operation, they are still the most thorough and searching cathartic medicine that can be employed: cleansing the stomach and bowels, and even the blood. In small doses of one pill a day, they stimulate the digestive organs and promote vigorous health.

AYER'S PILLS have been known for more than a quarter of a century, and have obtained a world-wide reputation for their virtues. They correct diseased action in the several assimilative organs of the body, and are so composed that obstructions within their range can rarely withstand or evade them. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are, at the same time, the safest and best physic for children. By their aperient action they gripe much less than the common purgatives, and never give pain when the bowels are not inflamed. They reach the vital fountains of the blood, and strengthen the system by freeing it from the elements of weakness.

Adapted to all ages and conditions in all climates, containing neither calomel nor any deleterious drug, these Pills may be taken with safety by anybody. Their sugar-coating preserves them ever fresh and makes them pleasant to take; while being purely vegetable, no harm can arise from their use in any quantity.

Woman.

By an immense practice at the World's Dispensary and Invalids' Hotel, having treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and positive remedy for these diseases.

To designate this natural specific, I have named it

Dr. Price's Favorite Prescription

The term, however, is but a feeble expression of my high appreciation of its value, based upon personal observation. I have, while witnessing its positive results in the special diseases incident to the organism of woman, singled it out as **the Climax or Crowning Gem of my medical career.** On its merits, as a positive, safe and effectual remedy for this class of diseases, and one that will, at all times and all circumstances, act kindly, I am willing to stake my reputation as a physician; and so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under A POSITIVE GUARANTEE. (For conditions, see pamphlet wrapping bottle.)

The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or falling of the Uterus, Anteversion and Retroversion, Bearing-down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, and Female Weakness. I do not extol this medicine as a "cure-all," but it admirably fulfills a **singleness of purpose**, being a most perfect specific in all chronic diseases of the sexual system of women. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, postpaid, on receipt of $1.50. It treats minutely of those diseases peculiar to Females, and gives much valuable advice in regard to the management of those affections.

DR. R. V. PIERCE, having acquired a world-wide reputation in the treatment of Chronic Diseases, resulting in a professional business far exceeding his individual ability to conduct, some years ago induced several medical gentlemen to associate themselves with with him, as the Faculty of the World's Dispensary, the Consulting Department of which has since been merged with the INVALIDS' HOTEL. The organization has been completed and incorporated under the name and style of **World's Dispensary Medical Association**, with the following officers: Hon. R. V. PIERCE, President; F. D. PIERCE, V. President; JOHN E. PIERCE, Secretary; LESTER B. SMITH, Treasurer.

NINE PHYSICIANS AND SURGEONS of eminence and skill have been chosen as the Faculty.

CHRONIC DISEASES of all forms come within the province of our several specialties.

LUNG DISEASES—This division of practice is very ably managed by a gentleman of mature judgment and skill. Bronchial, Throat and Lung Diseases treated with the most successful results.

DISEASES OF WOMEN.—Especially are our facilities of a superior order for the cure of all those chronic diseases peculiar to females.

NERVOUS DISEASES—Paralysis, Nervous Debility, Epilepsy (Fits), Chore (St. Vitus's Dance), Neuralgia, and other nervous affections, receive the attention of an expert in this specialty.

NOT NECESSARY TO SEE PATIENTS.—By our original system of diagnosis, we can treat many chronic diseases as successfully without as with a personal consultation. For particulars see "People's Common Sense Medical Adviser" (1,000 pages, sent post-paid for $1.50) or "Invalids' and Tourists' Guide Book" (100 pages, 10 cents post-paid).

SURGICAL CASES.—Among the operations which we are called upon most frequently to perform, are those for Nasal Polypus, Harelip, Tumors, Fistula in Ano, Piles, Hernia (Rupture), Hydrocele (Dropsy of the Scrotum), Varicocele, Ovarian and Uterine Tumors, Calculi (Stone in the Bladder), Stricture, etc., etc. We also treat successfully, by a new method without surgical operation, Cancers, Club-feet, Spinal Curvature, and other deformities. Congressional Summary.

Thursday, June 19.—SENATE.—The session of the senate which began at noon Wednesday was prolonged by republican filibustering and refusing to vote, until a late hour this afternoon, when an adjournment was finally agreed to, with the understanding that the army bill would be voted on Friday. HOUSE.—The report of the conference committee on the judicial expenses bill, was adopted by a strict party vote—102 to 79.

WE print elsewhere, a letter from Prof. LATHAM in reference to the difficulty at the Central Grammar School commencement exercises; also some press comments in which widely differing views are taken of the merits of the controversy. The affair has attracted a great deal of attention all over the country.

THERE is a decided reaction on the silver question all over the world. Ex-Secretary MCCULLOCH's public announcement of his conversion to bi-metalism has set others to thinking, and is producing good effects. It is becoming apparent that the attempt to reduce the entire world to one metal for its currency basis was fraught with the direst consequences. The New York *World* and the New York *Tribune* have actually reached a stage when, if they have not abandoned their gold worship, they can at least speak respectfully of the friends of silver. In Germany and England the silver party is rapidly gaining ground, among its adherents being some of the most eminent statesmen and political economists living. Among them is Mr. GOSCHEN, the English financier, who has decided views against the demonetization of silver, and believes that it will now steadily appreciate in value, especially as Germany has no more to unload on the markets of Europe.

THE republicans are making a disreputable attempt to manufacture some political capital against TOM EWING by references to his celebrated general order No. 11. These tactics have called forth from Gov. B. GRATZ BROWN of Missouri a very able letter urging Gen. EWING's election. The letter concludes in the following language, which states the pending issues between the parties with a force, truth and directness rarely equalled:

And for one I am free to say that, although not acquainted with Mr. FOSTER his competitor, yet were I in Ohio I should unquestionably give Mr. EWING my support, if for no other reason, because the success of Mr. FOSTER would go far to make possible the re-election of Gen. GRANT, or, what would be still worse, might render probable the elevation of Secretary SHERMAN to the presidency. This latter would install an officialism prepared to crystalize into a permanent policy for our people those now dominant ideas of national banks, financial contraction, protective duties, ocean subsidies, and railroad rings, which have so plundered the great agricultural sections at the bidding of organized capital as to make the states mere provinces tributary to the power throned in Wall street. Of that system Secretary SHERMAN is the incarnation, and his triumph or that of Mr. FOSTER, who is accredited as his representative in Ohio, would, in my opinion, pave the way to a supremacy fatal to any general equalized prosperity in this country for long years to come.

GOV. BROWN is right. Gen. EWING, in the present Ohio battle, stands for the rights and interests of the people against centralization, military supremacy, national banks, contraction, protective tariffs, ocean subsidies and railroad rings, and in that capacity deserves the help and the sympathy of all who are not in complicity with the rings which have ruled the country so long.

THE trouble at the recent commencement exercises did not occur in vain if it shall prove the means of infusing into the public mind a better and more correct idea of the true functions and limitations of our free school system. During the past few years there has been too much of a tendency, all over the country, to forget that these schools are *common* schools; that they are so in name, and should be actually such. Everywhere the tendency has been to make the schools ornamental; to neglect the primary and rudimentary departments for the purpose of enlarging and extending the upper grades. School boards have added to the course of study the languages and the higher mathematics and the fine arts, and have paid high prices for instructors in those branches while cramping the primary and intermediate grades. This tendency has not failed to excite wide-spread attention, and provoke general discussion. It is believed now that a reaction has set in, and that a movement is on foot which will result in confining our schools to their proper limits. In Fort Wayne the high school is a thing of the past, having been superseded by a central grammar school, and the same change has been made in many other cities. Less attention is given then formerly to the teaching of purely ornamental branches and more care is given to the primary and intermediate departments. It is recognized that these schools are *common* schools; that they are maintained for the use and benefit of the poor people of the county; and that they do not afford any proper field for costly display of any kind. In our common school commencement exercises, rich dressing and costly floral tributes are equally out of place. Let the rich have these things, if they desire, at their private institutions; but in our common schools it is merit alone that wins; the poorest scholar is on a plane of absolute equality with the richest; and the latter must not be allowed, by the expenditure of money, to affect a superiority which does tot exist. Any display at the Central Grammar School commencements is out of order. It is a fact that young women of superior capacity and scholarship, having earned a diploma, have refused to graduate because unable to purchase a dress equal to those to be worn by her classmates. It is a burning shame. The school board, in prohibiting the giving of floral tributes at the commencement exercises, did so, we doubt not, because they hold the some views that we have advanced in this article, and which must, we feel sure, be heartily endorsed by every true friend of the common school system.

THE NARROW GUAGE.

How It will Benefit the Indiana Farmers.

The Terre Haute Line's Natural Connection with the B. & O.

To the Editor of the Sentinel.

The promoters of the enterprize for building a narrow guage railroad from Fort Wayne to Terre Haute owe you many thanks for the encouragement which has been extended to them in your columns. In fact their thanks are due to other journals of this city as well for the words of encouragement which they have spoken to us. I wish, however, to correct an error into which you, as well as the others, sometimes fall, in dwelling mainly on the advantages to result to Fort Wayne from the building of this road. Regarded from the standpoint of those who are personally and closely identified with it, the interest of Fort Wayne is perhaps less than that of the farming country through which it is proposed to build the road. In saying this I do not, of course, wish to check the growth of the feeling which is being manifested more plainly everyday, that the success of the enterprise will probably give a more powerful impulse to the city's growth than has hitherto been imparted to it from any other single source.

But after all it is not Fort Wayne that is to be mainly benefitted by the building of a narrow gauge railroad hence to Terre Haute. Though I confess to this having been the object mainly in view at the start, investigation has disclosed the fact that great as may be the benefits to result to Fort Wayne from its success, those to accrue to the counties through which it may be located, between this point and Terre Haute promise to be far more numerous and important still.

Looking at Colton's or any other map gotten up to show the topography of the country as it is, and not to distort it for the purpose of making main "standard gauge" lines seem shorter than they are, it will be seen that Baltimore and Syracuse, in central New York, are about equi-distant from Fort Wayne, so far as haul and travel by rail is concerned; both being on the same parallel of longitude east of Washington. The hauling of the large amount of grain and live stock derived from the rich agricultural counties between this city and Terre Haute, (the finest in the state) over this extra distance of some 300 miles between Syracuse and tide water at New York city, is therefore useless as to so much of it as is to go to a European or other foreign markets; and it is this large surplus that regulates the price of farm products at the seabord markets. And the difference in distance between New York Central line by Auburn, the Erie, and the Pennsylvania, to New York, is too small to make a material difference to our farmers as to a choice between them, for over the shortest of them they have to pay for at least two hundred and fifty miles more freight then they would in reaching an equally favorable market by a direct route to the sea board at Baltimore. It is believed that the amount of money paid out by the farmers along the line of our proposed Road in a single year, for this useless hauling of their products.

WOULD SUFFICE TO BUILD AND EQUIP OUR ROAD.

But it may be asked, how is the building of a narrow gauge road from Fort Wayne to Terre Haute to help the farmers on its line in saving this useless hauling over hundreds of miles of "standard gauge" roads? The answer to this question is, that our road, connecting as it will with the Baltimore & Ohio at Hicksville, twenty-four miles northeast of Fort Wayne and within two miles of our county and state line, or at Tiffin 104 miles due east of us, will do it "as easy as turn your hand over." It will cost no more to transfer a car load of grain into a warehouse or elevator at one or the other of these points than at Toledo or Chicago; and such transfer at these points has not been considered—nor is it, in fact—a serious hindrance in the way of reaching a cheaper means for transportation.

But will the B. & O., who are "standard gauge" people, have anything to do with your narrow gauge "upstarts" in the way of friendly interchange of transfer facilities at the points mentioned! Of course they will, unless they be either stupids or fools. I beg pardon, for the business sagacity of these men is become proverbial, and ought to have saved them from the possibility of the suggestion that they would not, or could not, discern their own interest. Besides, from the nature of their route, diagonating the country as it does, there is no probability of their having to encounter at an early day that close lateral competition by the narrow gauge people for sea bound freights that has so alarmed our "standard gauge" competitors. In fact, the Baltimore & Ohio management have cause to regard us as friends and allies to be welcomed rather than foes to be fought or avoided. With the volume of farm products that will be brought to them over our road at one or the other of the points I have named, to be swelled by the tide of business to be derived from *another* narrow gauge road soon to be organized and built across the state from Fort Wayne through the counties west of us, via Rochester, Winnemac and Rensellaer to the Illinois line, and thence west via Pontiac to Galesburg, and thence to the Mississippi at Muscatine, as well to gain good footing, as a fair start on a line having no lateral competition across Iowa to Council Bluffs and the truly "far west," they may not only be expected to welcome us with both hands extended; but even to put down a third rail for our cars on their track via Pittsburgh to Baltimore; to the end that instead of dumping grain into warehouses or elevators at Hicksville or Tiffin it **may** be unloaded aboard ocean steamers bound for foreign ports at their docks in Baltimore. All this and even more, I expect to see accomplished within the compass of the near future.

When the farmers of Allen county and those on the line of our road between Fort Wayne and Terre Haute, come to be provided with warehouse facilities at all stations on our line, having, as we promise them they shall have, daily telegraph communication with the seaboard markets, they will be able to realize what a good thing they have done for themselves in helping to build this road; for not only will they be able to reach a "standard" seaboard and tidewater market for their products at the saving of hundreds of miles of expensive haul over "standard gauge" roads, but with the additional advantage of the cheaper rates for freight that ought to be afforded, and will be afforded to them, in consequence of the shorter haul being made over a line built and operated in a great part at not more than one-fourth the cost of all the existing "standard gauge" lines from the west to tidewater at New York or Philadelphia.

If any one will take the care to examine the line of the B. & O. road from the junction of the Chicago division with that from Sandusky City to Newark, at "Chicago Junction," in Huron county, O., and bear in mind that that company is now engaged in building the link from "Chicago Junction" on nearly an air line to Pittsburgh, to connect with its line from Pittsburgh to Baltimore, all that I have said of the saving of distance between Fort Wayne and tide water at the last named city may be verified.

In the *Railroad Gazette* of the 13th of June, there is a notice of our enterprize, to the effect that a company was being organized for building a narrow gauge railroad from Fort Wayne to Terre Haute, through a country already well supplied with railroads. If the editor had added, "such as they are," his seeming sneer would have been turned in the right direction; for it is true that between the two towns no less than a half dozen of so-called "standard gauge" trunk lines from almost all points west of us to New York are crossed by our line; as to close lateral competition, however, there is none whatever. But it is the fashion for organs of the "standard gauge" interest (of which the *Gazette*, from this sneer may be taken to be one) to decry all grist that does not go to their mill; and we are content it should be so, at least for a season, for lieutenants must think just as their captains think. But the day is not far off when those who have exalted themselves in railroad matters shall be humbled, and he who has ruled as "king" shall be made like another Sancho, to be *but the governor of an island.*

Mobile, Ala., June 19.—A fire on Water street, in the rear of the Battle House, burned Shermans stationary store, McKinley & Co's sadlery, Luncuff & Straub's wholesale dry goods. Loss, 125,000. Insured.

Chicago, June 19.—An interview with organizations in the city which have arms and ammunition indicate that they intend, as a rule, to comply with state laws and disband if they are unable to secure a license to retain their arms. The Lehr und Wehr Verin organization of working men, 900 strong, from which some trouble has been anticipated, intends, according to their leaders, to appear with their arms soon after July 1st, when the new law takes effect, and allow themselves to be arrested, that a test can be arranged and the constitutionality of the new law decided at once. The prospect for trouble on the 4th of July is therefore nearly removed.

Berlin, June 19.—In the Reichstag today, Herr Desbruck presented an interpellation in regard to the government discontinuing the coinage of silver. He said it was necessary to clearly define the situation. Especially in the debates of the British parliament, the question whether Germany intended to modify the law fixing upon the gold standard, had been treated as an open one. Bismark replied he himself did not think it expedient to commit himself to any expression of opinion on a question of such moment.

New York, June 19.—A fire broke out in the five story building Nos. 48 and 50 Walker street, and consumed the top floor and roof of the building. The top floor was occupied as a work room by J. Thomas, ladies' and children's clothier. The stock of Benfly Brothers, stamping and embroideries, fourth floor, was damaged by water and destroyed. The stock of Wm. Hinman and James P. Farrel, importers of woolens, on the lower floors, were also flooded by water. The damage will exceed $50,000.

Snow Hill, June 19.—Judge Wilson in sentencing Lillian Duer, who killed Emma Hearn, her friend, said: "Lillian Duer, you have been tried by a jury of true and honest men for one of the most heinous offenses known to law, and they have found you guilty of manslaughter. In view of the fact that there is no stain upon your previous life, the jury has commended you to their mercy. The court is glad of it. The law permits imprisonment in the penitentiary or common county jail, or, to a maximum fine of $500. The court will not sentence you to imprisonment, but as the offense was of so grave a character, the court will impose the highest fine which the law provides. The court therefore sentences you to pay a fine of $500, and to stand committed until the fine is paid." Her friends will at once pay the fine, and she will be discharged.

The Stomach Cannot be Freighted

With greater trash than a violent drastic purgative. True, such a medicine relieves constipation for the time, but at the expense of great injury to the intestinal canal, which it both inflames and weakens, thus unfitting it for the performance of its proper functions. Widely different is the action of Hostetter's Stomach Bitters, a tonic aperient which produces effects prompt, indeed, but never violent and convulsing. The purity of its botanic ingredients, its unobjectionable flavor, its genial influence upon the mind, and the thoroughness of its remedial action in cases of constipation, liver complaint and dyspepsia, combine to render it a most desirable family specific. It increases both physical vigor and substance, tranquilizes and invigorates the nervous system, and gives an unwonted relish for the food. A wineglass three times daily is about the average dose.

People residing in paludal districts, or removing to such localities, can place reliance in the efficacy of Dr. F. Wilhoft's Anti-Periodic or Fever and Ague Tonic, to prevent or rather counteract all malarial diseases. It never fails to cure Chills and Fever, Dumb Chills and Enlarged Spleen, and is guaranteed to contain no dangerous drug. The composition of this medicine is given with each bottle, and can be had from all druggists.

We earnestly hope and pray that no one else will let their sick suffer as we did, on account of prejudice against so good a medicine as "Hop Bitters."—The Parents.

THE RICH CALIFORNIA BANKER.

When it became known that one of the richest California bankers had left the Pacific Coast and transferred his base of operations to the New York Stock Exchange, all the shrewd financiers watched his course with shrewd interest to see how he would succeed. The result has emphatically proved the wealthy banker's sagacity. Besides having a much wider and more promising field to operate in, he is known to have been in several stock combinations that paid immense profits. By the combination method of operating in stocks Messrs. Lawrence & Co., Bankers, N. Y., unite orders of thousands of customers, in different sums, into one vast capital, and operate them as a mighty whole, dividing profits *pro rata* among shareholders every 30 days. Capital in any amount from $10 to $100,000 can be used with great success in these pools. $25 would $100 profit. $500 would make $5,000 or 10 percent on the stock during the month. Messrs. Lawrence & Co.'s new circular (mailed free) gives "two unerring rules for success," and full particulars, so that any one can operate in stocks and make money. Stock and bonds wanted. Congressional Summary.

Thursday, June 19.—SENATE.—The session of the senate which began at noon Wednesday was prolonged by republican filibustering and refusing to vote, until a late hour this afternoon, when an adjournment was finally agreed to, with the understanding that the army bill would be voted on Friday. HOUSE.—The report of the conference committee on the judicial expenses bill was adopted by a strict party vote—102 to 79.

WE print elsewhere a letter from Prof. LATHAM in reference to the difficulty at the Central Grammar School commencement exercises; also some press comments in which widely differing views are taken of the merits of the controversy. The affair has attracted a great deal of attention all over the country.

THERE is a decided reaction on the silver question all over the world. Ex-Secretary MCCULLOCH's public announcement of his conversion to bi-metalism has set others to thinking, and is producing good effects. It is becoming apparent that the attempt to reduce the entire world to one metal for its currency basis was fraught with the direst consequences. The New York *World* and the New York *Tribune* have actually reached a stage when, if they have not abandoned their gold worship, they can at least speak respectfully of the friends of silver. In Germany and England the silver party is rapidly gaining ground, among its adherents being some of the most eminent statesmen and political economists living. Among them is Mr. GOSCHEN, the English financier, who has decided views against the demonetization of silver, and believes that it will now steadily appreciate in value, especially as Germany has no more to unload on the markets of Europe.

THE republicans are making a disreputable attempt to manufacture some political capital against TOM EWING by references to his celebrated general order No. 11. These tactics have called forth from Gov. B. GRATZ BROWN of Missouri a very able letter urging Gen. EWING's election. The letter concludes in the following language, which states the pending issues between the parties with a force, truth and directness rarely equalled:

And for one I am free to say that, although not acquainted with Mr. FOSTER his competitor, yet were I in Ohio I should unquestionably give Mr. EWING my support, if for no other reason, because the success of Mr. FOSTER would go far to make possible the re-election of Gen. GRANT, or, what would be still worse, might render probable the elevation of Secretary SHERMAN to the presidency. This latter would install an officialism prepared to crystalize into a permanent policy for our people those now dominant ideas of national banks, financial contraction, protective duties, ocean subsidies, and railroad rings, which have so plundered the great agricultural sections at the bidding of organized capital as to make the states mere provinces tributary to the power throned in Wall street. Of that system Secretary SHERMAN is the incarnation, and his triumph or that of Mr. FOSTER, who is accredited as his representative in Ohio, would, in my opinion, pave the way to a supremacy fatal to any general equalized prosperity in this country for long years to come.

Gov. BROWN is right. Gen. EWING, in the present Ohio battle, stands for the rights and interests of the people against centralization, military supremacy, national banks, contraction, protective tariffs, ocean subsidies and railroad rings, and in that capacity deserves the help and the sympathy of all who are not in complicity with the rings which have ruled the country so long.

THE trouble at the recent commencement exercises did not occur in vain if it shall prove the means of infusing into the public mind a better and more correct idea of the true functions and limitations of our free school system. During the past few years there has been too much of a tendency, all over the country, to forget that these schools are *common* schools; that they are so in name, and should be actually such. Everywhere the tendency has been to make the schools ornamental; to neglect the primary and rudimentary departments for the purpose of enlarging and extending the upper grades. School boards have added to the course of study the languages and the higher mathematics and the fine arts, and have paid high prices for instructors in those branches while cramping the primary and intermediate grades. This tendency has not failed to excite wide-spread attention, and provoke general discussion. It is believed now that a reaction has set in, and that a movement is on foot which will result in confining our schools to their proper limits. In Fort Wayne the high school is a thing of the past, having been superseded by a central grammar school, and the same change has been made in many other cities. Less attention is given then formerly to the teaching of purely ornamental branches and more care is given to the primary and intermediate departments. It is recognized that these schools are *common* schools; that they are maintained for the use and benefit of the poor people of the county; and that they do not afford any proper field for costly display of any kind. In our common school commencement exercises, rich dressing and costly floral tributes are equally out of place. Let the rich have these things, if they desire, at their private institutions; but in our common schools it is merit alone that wins: the poorest scholar is on a plane of absolute equality with the richest, and the latter must not be allowed, by the expenditure of money, to affect a superiority which does tot exist. Any display at the Central Grammar School commencements is out of order. It is a fact that young women of superior capacity and scholarship, having earned a diploma, have refused to graduate because unable to purchase a dress equal to those to be worn by her classmates. It is a burning shame. The school board, in prohibiting the giving of floral tributes at the commencement exercises, did so, we doubt not, because they hold the some views that we have advanced in this article, and which must, we feel sure, be heartily endorsed by every true friend of the common school system.

THE NARROW GUAGE.

How It will Benefit the Indiana Farmers.

The Terre Haute Line's Natural Connection with the B. & O.

To the Editor of the Sentinel.

The promoters of the enterprize for building a narrow guage railroad from Fort Wayne to Terre Haute owe you many thanks for the encouragement which has been extended to them in your columns. In fact their thanks are due to other journals of this city as well for the words of encouragement which they have spoken to us. I wish, however, to correct an error into which you, as well as the others, sometimes fall, in dwelling mainly on the advantages to result to Fort Wayne from the building of this road. Regarded from the standpoint of those who are personally and closely identified with it, the interest of Fort Wayne is perhaps less than that of the farming country through which it is proposed to build the road. In saying this I do not, of course, wish to check the growth of the feeling which is being manifested more plainly everyday, that the success of the enterprise will probably give a more powerful impulse to the city's growth than has hitherto been imparted to it from any other single source.

But after all it is not Fort Wayne that is to be mainly benefitted by the building of a narrow gauge railroad hence to Terre Haute. Though I confess to this having been the object mainly in view at the start, investigation has disclosed the fact that great as may be the benefits to result to Fort Wayne from its success, those to accrue to the counties through which it may be located, between this point and Terre Haute promise to be far more numerous and important still.

Looking at Colton's or any other map gotten up to show the topography of the country as it is, and not to distort it for the purpose of making main "standard gauge" lines seem shorter than they are, it will be seen that Baltimore and Syracuse, in central New York, are about equi-distant from Fort Wayne, so far as haul and travel by rail is concerned, both being on the same parallel of longitude east of Washington. The hauling of the large amount of grain and live stock derived from the rich agricultural counties between this city and Terre Haute, (the finest in the state) over this extra distance of some 300 miles between Syracuse and tide water at New York city, is therefore useless as to so much of it as is to go to a European or other foreign markets; and it is this large surplus that regulates the price of farm products at the seabord markets. And the difference in distance between New York Central line by Auburn, the Erie, and the Pennsylvania, to New York, is too small to make a material difference to our farmers as to a choice between them, for over the shortest of them they have to pay for at least two hundred and fifty miles more freight then they would in reaching an equally favorable market by a direct route to the sea board at Baltimore. It is believed that the amount of money paid out by the farmers along the line of our proposed Road in a single year, for this useless hauling of their products.

WOULD SUFFICE TO BUILD AND EQUIP OUR ROAD.

But it may be asked, how is the building of a narrow gauge road from Fort Wayne to Terre Haute to help the farmers on its line in saving this, useless hauling over hundreds of miles of "standard gauge" roads? The answer to this question is, that our road, connecting as it will with the Baltimore & Ohio at Hicksville, twenty-four miles northeast of Fort Wayne and within two miles of our county and state line, or at Tiffin 104 miles due east of us, will do it "as easy as turn your hand over." It will cost no more to transfer a car load of grain into a warehouse or elevator at one or the other of these points than at Toledo or Chicago; and such transfer at these points has not been considered—nor is it, in fact—a serious hindrance in the way of reaching a cheaper means for transportation.

But will the B. & O., who are "standard gauge" people, have anything to do with your narrow gauge "upstarts" in the way of friendly interchange of transfer facilities at the points mentioned! Of course they will, unless they be either stupids or fools. I beg pardon, for the business sagacity of these men is become proverbial, and ought to have saved them from the possibility of the suggestion that they would not, or could not, discern their own interest. Besides, from the nature of their route, diagonating the country as it does, there is no probability of their having to encounter at an early day that close lateral competition by the narrow gauge people for sea bound freights that has so alarmed our "standard gauge" competitors. In fact, the Baltimore & Ohio management have cause to regard us as friends and allies to be welcomed rather than foes to be fought or avoided. With the volume of farm products that will be brought to them over our road at one or the other of the points I have named, to be swelled by the tide of business to be derived from *another* narrow gauge road soon to be organized and built across the state from Fort Wayne through the counties west of us, via Rochester, Winnemac and Rensellaer to the Illinois line, and thence west via Pontiac to Galesburg, and thence to the Mississippi at Muscatine, as well to gain good footing, as a fair start on a line having no lateral competition across Iowa to Council Bluffs and the truly "far west," they may not only be expected to welcome us with both hands extended, but even to put down a third rail for our cars on their track via Pittsburgh to Baltimore; to the end that instead of dumping grain into warehouses or elevators at Hicksville or Tiffin it may be unloaded aboard ocean steamers bound for foreign ports at their docks in Baltimore. All this and even more, I expect to see accomplished within the compass of the near future.

When the farmers of Allen county and those on the line of our road between Fort Wayne and Terre Haute, come to be provided with warehouse facilities at all stations on our line, having, as we promise them they shall have, daily telegraph communication with the seaboard markets, they will be able to realize what a good thing they have done for themselves in helping to build this road; for not only will they be able to reach a "standard" seaboard and tidewater market for their products at the saving of hundreds of miles of expensive haul over "standard gauge" roads, but with the additional advantage of the cheaper rates for freight that ought to be afforded, and will be afforded to them, in consequence of the shorter haul being made over a line built and operated in a great part at not more than one-fourth the cost of all the existing "standard gauge" lines from the west to tidewater at New York or Philadelphia.

If any one will take the care to examine the line of the B. & O. road from the junction of the Chicago division with that from Sandusky City to Newark, at "Chicago Junction," in Huron county, O., and bear in mind that that company is now engaged in building the link from "Chicago Junction" on nearly an air line to Pittsburgh, to connect with its line from Pittsburgh to Baltimore, all that I have said of the saving of distance between Fort Wayne and tide water at the last named city may be verified.

In the *Railroad Gazette* of the 13th of June, there is a notice of our enterprize, to the effect that a company was being organized for building a narrow gauge railroad from Fort Wayne to Terre Haute, through a country already well supplied with railroads. If the editor had added, "such as they are," his seeming sneer would have been turned in the right direction; for it is true that between the two towns no less than a half dozen of so-called "standard gauge" trunk lines from almost all points west of us to New York are crossed by our line; as to close lateral competition, however, there is none whatever. But it is the fashion for organs of the "standard gauge" interest (of which the *Gazette*, from this sneer, may be held to be one) to decry all ... the loss not go to their mill; and we so consent it should be so, at least for a season, for lieutenants must think just as their captains think. But the day is not far off when those who have exalted themselves in railroad matters shall be humbled, and he who has ruled as "king" shall be made like another Sancho, to be *but the govern of an island.*

Mobile, Ala., June 19.—A fire on Water street, in the rear of the Battle House, burned Shermans stationary store, McKinley & Co's saddlery, Luncuff & Straub's wholsale dry goods. Loss, 125,000. Insured.

Chicago, June 9.—An interview with organizations in the city which have arms and ammunition indicate that they intend, as a rule, to comply with state laws and disband if they are unable to secure a license to retain their arms. The Lehir and Wehr Verin organization of working-men, 900 strong, from which some trouble has been anticipated, intends, according to their leaders, to appear with their arms soon after July 1st, when the new law takes effect, and alow themselves to be arrested, that a test can be arranged and the constitutionality of the new law decided at once. The prospect for trouble on the 4th of July is therefore nearly removed.

Berlin, June 19.—In the Reichstag today, Herr Desbruck presented an interpellation in regard to the government discontinuing the coinage of silver. He said it was necessary to clearly define the situation. Especially in the debates of the British parliament, the question whether Germany intended to modify the law fixing upon the gold standard, had been treated as an open one. Bismark replied he himself did not think it expedient to commit himself to any expression of opinion on a question of such moment.

New York, June 19.—A fire broke out in the five story building No. 48 and 50 Walker street, and consumed the top floor and roof of the building. The top floor was occupied as a work room by J. Thomas, ladies' and children's clothier. The stock of Bently Brothers, staming and embroderies, fourth floor, was damaged by water and destroyed. The stock of Wm. Hinman and James P. Farrel, importers of woolens, on the lower floors, were also flooded by water. The damage will exceed $50,000.

Snow Hill, June 19.—Judge Wilson, in sentencing Lillian Duer, who killed Emma Hearn, her friend, said: "Lillian Duer, you have been tried by a jury of true and honest men for one of the most heinous offenses known to law, and they have found you guilty of manslaughter. In view of the fact that there is no stain upon your previous life, the jury has commended you to their mercy. The court is glad of it. The law permits imprisonment in the penitentiary or common county jail, or to a maximum fine of $500. The court will not sentence you to imprisonment, but as the offense was of so grave a character, the court will impose the highest fine which the law provides. The court therefore sentences you to pay a fine of $500, and to stand committed until the fine is paid." Her friends will at once pay the fine, and she will be discharged.

The Stomach Cannot be Freighted

With greater trash than a violent drastic purgative. True, such a medicine relieves constipation for the time, but at the expense of great injury to the intestinal canal, which it both inflames and weakens, thus unfitting it for the performance of its proper functions. Widely different is the action of Hostetter's Stomach Bitters, a tonic aperient which produces effects prompt, indeed, but never violent and convulsing. The purity of its botanic ingredients, its unobjectionable flavor, its genial influence upon the mind, and the thoroughness of its remedial action in cases of constipation, liver complaint and dyspepsia, combine to render it a most desirable family specific. It increases both physical vigor and substance, tranquilizes and invigorates the nervous system, and gives an unwonted relish for the food. A wineglass three times daily is about the average dose.

People residing in paludal districts, or removing to such localities, can place reliance in the efficacy of Dr. F. Wilhoft's Anti-Periodic or Fever and Ague Tonic, to prevent or rather counteract all malarial diseases. It never fails to cure Chills and Fever, Dumb Chills and Enlarged Spleen, and is guaranteed to contain no dangerous drug. The composition of this medicine is given with each bottle, and can be had from all druggists.

Prejudice Kills.

"Eleven years our daughter suffered on a bed of misery under the care of several of the best (and some of the worst) physicians, who gave her disease various names but no relief, and now she is restored to us in good health by as simple a remedy as Hop Bitters, that we had poohed at for two years, before using it. We earnestly hope and pray that no one else will let their sick suffer as we did, on account of prejudice against so good a medicine as "Hop Bitters."—The Parents.

We Challenge the World.

When we say we believe, we have evidence to prove that Shiloh's Consumption Cure is decidedly the best Lung Medicine made, in as much as it will cure asthma or chronic cough in one half the time and relieve Asthma, Bronchitis, Whooping Cough, Croup, and show more cases of Consumption cured than all others. It will cure where they fail; it is pleasant to take, harmless to the youngest child, and we guarantee what we say. Price, 10 cents, 50 cents and $1. If your Lungs are sore, Chest or Back lame, use Shiloh's Porous Plaster. Sold by Dreier & Bro. 1

THE RICH CALIFORNIA BANKER.

When it became known that one of the richest California bankers had left the Pacific Coast and transferred his base of operations to the New York Stock Exchange, all the shrewd financiers watched his course with shrewd interest to see how he would succeed. The result has emphatically proved the wealthy banker's sagacity. Besides having a much wider and more promising field to operate in, he is known to have been in several stock combinations that paid immense profits. By the combination method of operating in stocks Messrs. Lawrence & Co., Bankers, N. Y., unite orders of thousands of customers, in different sums, into one vast capital, and operate them as a mighty whole, dividing profits *pro rata* among shareholders every 30 days. Capital in any amount from $10 to $100,000 can be used with great success in these pools. $25 would $100 profit. $500 would make $5,000 or 10 percent on the stock during the month. Messrs. Lawrence & Co.'s new circular (mailed free) gives "two unerring rules for success," and full particulars, so that any one can operate in stocks and make money. Stock and bonds wanted. Government bonds supplied. Apply to Lawrence & Co., Bankers, 57 Exchange Place, N. Y. 2

THE GENUINE

DR. C. McLANE'S

CELEBRATED

LIVER PILLS

FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver.

PAIN in the right side under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness, and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. McLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and as a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated.

Every box has a red wax seal on the lid, with the impression DR. McLANE'S LIVER PILLS.

The genuine McLANE'S LIVER PILLS bear the signatures of C. McLANE and FLEMING BROS. on the wrappers.

Insist upon having the genuine DR. C. McLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.

TUTT'S PILLS!

A NOTED DIVINE SAYS

THEY ARE WORTH THEIR

WEIGHT IN GOLD

READ WHAT HE SAYS.

DR. TUTT:—Dear Sir: For ten years I have been a martyr to Dyspepsia, Constipation and Piles. Last Spring your Pills were recommended to me. I used them, but with little faith. I am now a well man; have good appetite, digestion perfect, regular stools, piles gone, and I have gained forty pounds solid flesh. They are worth their weight in gold.

REV. T. J. SIMPSON, Louisville, Ky.

A TORPID LIVER

is the fruitful source of many diseases, such as Dyspepsia, Sick Headache, Costiveness, Dysentery, Bilious Fever, Ague and Fever, Jaundice, Piles, Rheumatism, Kidney Complaint, &c.

Tutt's Pills exert a powerful influence on the Liver, and will certainly relieve that important organ from disease, and restore its normal functions.

The rapidity with which persons take on flesh, while under the influence of these pills, distinctly indicates their adaptability to nourish the body, hence their efficacy in curing nervous debility, dyspepsia, wasting of the muscles, sluggishness of the liver, chronic constipation, and imparting health and strength to the system.

CONSTIPATION.

Only with regularity of the bowels can perfect health be enjoyed. When the constipation is of recent date, a single dose of TUTT'S PILLS will suffice, but if it has become habitual, one, if should be taken every night, gradually lessening the frequency of the dose until a regular daily movement is obtained, which will soon follow.

BATTLE OF THE BOUQUETS.

A Letter from Prof. Latham in His Own Defense.

Some Press Comments from Very different Standpoints.

PROF. LATHAM.

NOT TO BE SAT DOWN ON.

VERMONTVILLE, Mich., June 18, 1879.

To the Editor of the Sentinel:

A copy of your paper of June 14 has just reached me, in which I find the following statement:

President Edgerton sits down very heavily upon Prof. Latham, who he believes was cognizant of the course the boys would pursue, and believes that he encouraged them.

As I have been attacked thus publicly, I ask you to insert in your paper a brief statement by me.

In my dealing with the pupils of the central grammar school, I have always pursued the plan of urging upon them the propriety and necessity of obeying every order of the board, superintendent and teachers without arguing or considering the

JUSTNESS OF THE ORDER.

I have told many of them repeatedly and emphatically that when they hesitated to obey there was but one course left for them, and that was to withdraw from the school. This advice I gave the senior class when, in answer to their petition to the board to procure for them the Academy of Music for the graduating exercises, President Edgerton said that the board could not submit to the dictation of the senior class. In regard to the difficulty on the evening of the graduating exercises, the action of the boys was more of a surprise to me than to President Edgerton, for on our way through the hall to the room in which the graduating class and the teachers were forming into line, he said to me that he expected a public demonstration by the boys. His precaution in summoning a policeman also showed his suspicion. I had neither knowledge nor suspicion that any extraordinary action of any kind was contemplated by any member of the senior class beyond what I could understand by the

NOTICES IN THE PAPERS,

purporting to come from some of the boys. I made enquiries about these notices and the most that I could learn was that two of the boys acknowledged that they were present when these notices were handed in for publication. This I told President Edgerton when he asked me if I expected any demonstration by the boys.

After the exercises were over, several of the boys who had left the stage so unceremoniously came to me to ask me not to consider their action disrespectful toward me. I talked with them some time and told them that they had done wrong; that my feeling over the affair was of sorrow rather than anger, and because of this one mistep, I could not withhold my friendship from them. I was furthermore told by one of them that their action was not previously planned, and that Mr. Wilson received instructions by a note after he came on to the stage to

WAIT FOR A BOUQUET

after he had finished his speech. At the close of the graduating exercises, I stepped across the stage to Mr. Edgerton and told him I would like to say a few words to the people; to tell those who denounced the boys not to regard them as vagabonds, but gentlemen who had committed their first wrong, and to condemn that act only; to tell those who fully sympathized with the boys that they should consider all the circumstances and not voluntarily say or do that which would tend to injure both the boys and the school. Mr. Edgerton said no; the less said, the better. I assuredly did not then anticipate that he wished me to be silent that I might not be understood, and thus the responsibility of the affair might be tossed on me after I had left the city. On the next morning, when I bade him good bye, I saw no intimation that he would "sit down" on me before night. In fact, I had not taken Mr. Edgerton to be

A "SQUATTER SOVEREIGNTY" MAN.

Especially in the last few weeks I have had the strongest reasons for believing that Mr. Edgerton had full faith in my honor and integrity, and I can't now believe that he has all at once changed his mind on what might have come to him as a slight suspicion, but which would have proved very false on the slightest investigation. He has injured me publicly, and if he is the honorable gentleman I have taken him to be, he will right the injury in a public manner.

As to the recent graduates, and also as to all the pupils of the Central Grammar School, I have to say that I have a profound respect and a lasting friendship for them, as I believe they in turn have for me—such a respect and such a friendship as could not possibly be the result of collusion and conspiracy between us. I am, yours, etc.,

CHAS. K. LATHAM.

[Evansville Tribune.]

Again we have to compliment the school board of this city for the good sense displayed by the members. Just contrast it with the ill-advised haste of President Edgerton, of the Fort Wayne board, toward a young man named Geewilliam something, who evidently studied his disobedience and discourtesy of an order, and the members of the board. Just fancy Mr. Pfaffli, Dr. Bridewell, Capt. Wartmann or Prof. Bloss struggling with a boy for a basket of flowers. No you needn't; it couldn't be imagined. Any reader of the article with no interest in the squabble must come to the conclusion that Mr. Edgerton lowered his dignity and injured his reputation for good sound sense by struggling with the vain young sauce-box, and by so doing precipitated such a disgraceful scene. He and his fellow members of the board could much better have afforded to ignore the piece of impudence and bravado. We are so glad to know that it was not a girl, as at first reported, who made such an exhibition of herself. Geewilliam Wilson was his name, and Geewilliam ought to have a bushel basket of dandelions. Read the clipping headed Floral Revolt, and the point will be plain.

The Baptist Concert.

The social and concert at the Baptist Church last evening was a very enjoyable affair, and was largely attended. The musical exercises preceding the refreshments were under the direction of Mr. H. B. Woolsey. They consisted of a trio by Miss McDonald and Messrs. Lang and Yarnell; "Farmer's Mass," performed on two organs and a piano; a trombone solo by Prof. Heath; selections by a male quartette consisting of Messrs. Heath, Harkemper, Taylor and Woolsey; a duett by Mrs. Hawkins and Mr. Woolsey, and a drum solo by Master Frank Dwelley, accompanied on the piano by his mother. The concert was very fine and gave the greatest satisfaction, Mr. Heath's, trombone solo being rapturously applauded, the performer responding with an *encore*. The male quartette also gave a second selection in compliance with a special request. The refreshments following the concert were most delicious, and were partaken of by a large number of those present, the parlors of the church being literally packed.

The excursion to Rome City yesterday under the auspices of the St. Vincent de Paul Society, passed off very pleasantly in every respect. There were not less than 600 persons in attendance, and the affair passed off without any incident to mar the pleasure of the day. The party returned at about 7 last evening, well pleased with the manner in which they had passed the day.

No display advertisements will be received at this office after 10 a. m. for insertion the same day, and they should be handed in as much earlier than that hour as possible. "City Features" and announcements must be handed in before noon or they will not be inserted the same day. This notice is imperative, and will be adhered to in the future without exception.

The funeral of the late Mrs. George Baker took place to-day from St. Mary's Church. The attendance was quite large. The body was interred in the Catholic Cemetery.

OUR CLAIMS.

We claim that there is greater certainty and uniformity in the production of good bread, biscuits, etc., in the use of Dr. Price's Cream Baking Powder, and that the articles made with it are more wholesome and digestible than if made with any other kind. Test it by the most reliable and truthful test—in the oven.

Fourth of July Excursions.

Office General Ticket and Passenger Agent, Pennsylvania Company, No. 65 Clark street, Chicago, June 14th, 1879.—July 4th, 1879, will be celebrated by elegant excursions over the Pittsburgh, Fort Wayne and Chicago Railway. The Pennsylvania Company operating the above line, will sell excursion tickets on July 3d and 4th, good to return until and including July 5th, 1879, between stations on above road at reduced rates. These tickets will be good on all passenger trains, to and from such stations as they stop at regularly, according to schedule. Should there be a sufficient number from any one station to justify the company running special trains, arrangements can be made by applying to division superintendent, giving timely notice to prepare trains.

Haunted Me.

Debt, poverty and suffering haunted me for years, caused by a sick family and large bills for doctoring, which did no good. I was completely discouraged, until one year ago, by advice of my pastor, I procured Hop Bitters and commenced their use, and in one month we were all well, and none of us have been sick a day since; and I want to say to all poor men, you can keep your families well a year with Hop Bitters for less than one doctor's visit will cost.—A Workingman. 6,16-31

On Tuesday the 24th, a grand excursion to Niagara via the Wabash and Canada Southern, will be given from all towns as far west as Lafayette. The fare for the round trip from this city is only $5. Train leaves here at 7.40 p. m. and arrives at the Falls the next morning at 9 o'clock. The tickets give two days at the Falls, two days extra at Put-in Bay, and one or two days at Toledo. Tickets to Toledo or Put-in-Bay only $1.00 extra each. Sleepers at reduced rates will be run from this city, and excursion rates have been made at the Falls for hotel accommodations and carriage hire. This will be the most attractive excursion of the season.

LIVER PILLS

FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. McLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and as a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated.

Every box has a red wax seal on the lid, with the impression DR. McLANE'S LIVER PILLS.

The genuine McLANE'S LIVER PILLS bear the signatures of C. McLANE and FLEMING BROS. on the wrappers.

Insist upon having the genuine DR. C. McLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.

TUTT'S PILLS!

A NOTED DIVINE SAYS THEY ARE WORTH THEIR WEIGHT in GOLD

READ WHAT HE SAYS:

DR. TUTT:—Dear Sir: For ten years I have been a martyr to Dyspepsia, Constipation and Piles. Last Spring your Pills were recommended to me; I used them (but with little faith). I am now a well man, have good appetite, digestion perfect, regular stools, piles gone, and I have gained forty pounds solid flesh. They are worth their weight in gold.

REV. R. L. SIMPSON, Louisville, Ky.

A TORPID LIVER

is the fruitful source of many diseases, such as Dyspepsia, Sick Headache, Costiveness, Dysentery, Bilious Fever, Ague and Fever, Jaundice, Piles, Rheumatism, Kidney Complaint, Colic, etc.

Tutt's Pills exert a powerful influence on the Liver, and will with certainty relieve that important organ from disease, and restore its normal functions.

The rapidity with which persons take on flesh, while under the influence of these pills, of itself indicates their adaptability to nourish the body, hence their efficacy in curing nervous debility, dyspepsia, wasting of the muscles, sluggishness of the liver, chronic constipation, and imparting health and strength to the system.

CONSTIPATION.

Only with regularity of the bowels can perfect health be enjoyed. When the constipation is of recent date, a single dose of TUTT'S PILLS will suffice, but if it has become habitual, one pill should be taken every night, gradually lessening the frequency of the dose until a regular daily movement is obtained, which will soon follow.

BATTLE OF THE BOUQUETS.

A Letter from Prof. Latham in His Own Defense.

Some Press Comments from Very Different Standpoints.

PROF. LATHAM.

NOT TO BE SAT DOWN ON.

VERMONTVILLE, Mich., June 18, 1879.

To the Editor of the Sentinel:

A copy of your paper of June 14 has just reached me, in which I find the following statement:

President Edgerton sits down very heavily upon Prof. Latham, who he believes was cognizant of the course the boys would pursue, and believes that he encouraged them.

As I have been attacked thus publicly, I ask you to insert in your paper a brief statement by me.

In my dealing with the pupils of the central grammar school, I have always pursued the plan of urging upon them the propriety and necessity of obeying every order of the board, superintendent and teachers without arguing or considering the

JUSTNESS OF THE ORDER.

I have told many of them repeatedly and emphatically that when they hesitated to obey there was but one course left for them, and that was to withdraw from the school. This advice I gave the senior class when, in answer to their petition to the board to procure for them the Academy of Music for the graduating exercises, President Edgerton said that the board could not submit to the dictation of the senior class. In regard to the difficulty on the evening of the graduating exercises, the action of the boys was more of a surprise to me to me than to President Edgerton; for on our way through the hall to the room in which the graduating class and the teachers were forming into line, he said to me that he expected a public demonstration by the boys. His precaution in summoning a policeman also showed his suspicion. I had neither knowledge nor suspicion that any extrordinary action of any kind was contemplated by any member of the senior class beyond what I could understand by the

NOTICES IN THE PAPERS,

purborting to come from some of the boys. I made enquires about these notices and the most that I could learn was that two of the boys acknowledged that they were present when these notices were handed in for publication. This I told President Edgerton when he asked me if I expected any demonstration by the boys.

After the exercises were over, several of the boys who had left the stage so unceremoniously came to me to ask me not to consider their action disrespectful toward me. I talked with them some time and told them that they had done wrong; that my feeling over the affair was of sorrow rather than anger, and because of this one misstep, I could not withhold my friendship from them. I was furthermore told by one of them that their action was not previously planned, and that Mr. Wilson received instructions by a note after he came on to the stage to

WAIT FOR A BOUQUET

after he had finished his speech. At the close of the graduating exercises, I stepped across the stage to Mr. Edgerton and told him I would like to say a few words to the people; to tell those who denounced the boys not to regard them as vagabonds, but gentlemen who had committed their first wrong, and to condemn that act only; to tell those who fully sympathized with the boys that they should consider all the circumstances and not voluntarily say or do that which would tend to injure both the boys and the school. Mr. Edgerton said no; the less said the better. I assuredly did not then anticipate that he wished me to be silent that I might not be understood, and thus the responsibility of the affair might be tossed on me after I had left the city. On the next morning, when I bade him good bye, I saw no intimation that he would "sit down" on me before night. In fact, I had not taken Mr. Edgerton to be

A "SQUATTER SOVEREIGNTY" MAN.

Especially in the last few weeks I have had the strongest reasons for believing that Mr. Edgerton had full faith in my honor and integrity, and I can't now believe that he has all at once changed his mind on what might have come to him as a slight suspicion, but which would have proved very false on the slightest investigation. He has injured me publicly, and if he is the honorable gentleman I have taken him to be, he will right the injury in a public manner.

As to the recent graduates, and also as to all the pupils of the Central Grammar School, I have to say that I have a profound respect and a lasting friendship for them, as I believe they in turn have for me—such a respect and such a friendship as could not possibly be the result of collusion and conspiracy between us. I am, yours, etc.,

CHAS. K. LATHAM.

PRESS COMMENTS.

A MERE SHAM.

[Lagrange Standard.]

The giving of bouquets on such occasions has become a mere sham, and productive of more unpleasant feelings than otherwise. But, then, Young America will not stand being prohibited from playing sham, any more than Old America will be from being humbugged.

THEIR LAURELS.

[Lafayette Dispatch.]

Better let the scholars have their laurels in peace as well as their parchments.

A CYNICAL CUSS.

[Evansville Tribune.]

Again we have to compliment the school board of this city for the good sense displayed by the members. Just contrast it with the ill-advised haste of President Edgerton, of the Fort Wayne board, toward a young man named Geewillium something, who evidently studied his disobedience and discourtesy of an order, and the members of the board. Just fancy Mr. Pfaffiin, Dr. Bridewell, Capt. Wartmann, or Prof. Bloss struggling with a boy for a basket of flowers. No you needn't; it couldn't be imagined. Any reader of the article with no interest in the squabble must come to the conclusion that Mr. Edgerton lowered his dignity and injured his reputation for good sound sense by struggling with the vain young sauce-box, and by so doing precipitated such a disgraceful scene. He and his fellow members of the board could much better have afforded to ignore the piece of impudence and bravado. We are so glad to know that it was not a girl, as at first reported, who made such an exhibition of herself. Geewilliam Wilson was his name, and Geewilliam ought to have a bushel basket of dandelions. Read the clipping headed Floral Revolt, and the point will be plain.

The Baptist Concert.

The social and concert at the Baptist Church last evening was a very enjoyable affair, and was largely attended. The musical exercises preceding the refreshments were under the direction of Mr. H. B. Woolsey. They consisted of a trio by Miss McDonald and Messrs. Lang and Yarnell; "Farmer's Mass," performed on two organs and a piano; a trombone solo by Prof. Heath; selections by a male quartette consisting of Messrs. Heath, Harkemper Taylor and Woolsey; a duett by Mrs. Hawkins and Mr. Woolsey, and a drum solo by Master Frank Dwelley, accompanied on the piano by his mother. The concert was very fine and gave the greatest satisfaction, Mr. Heath's trombone solo being rapturously applauded, the performer responding with an *encore*. The male quartette also gave a second selection in compliance with a special request. The refreshments following the concert were most delicious, and were partaken of by a large number of those present, the parlors of the church being literally packed.

The excursion to Rome City yesterday under the auspices of the St. Vincent de Paul Society, passed off very pleasantly in every respect. There were not less than 600 persons in attendance, and the affair passed off without any incident to mar the pleasure of the day. The party returned at about 7 last evening, well pleased with the manner in which they had passed the day.

No display advertisements will be received at this office after 10 a. m. for insertion the same day, and they should be handed in as much earlier than that hour as possible. "City Features" and announcements must be handed in before noon or they will not be inserted the same day. This notice is imperative, and will be adhered to in the future without exception.

The funeral of the late Mrs. George Baker took place to-day from St. Mary's Church. The attendance was quite large. The body was interred in the Catholic Cemetery.

OUR CLAIMS.

We claim that there is greater certainty and uniformity in the production of good bread, biscuits, etc., in the use of Dr. Price's Cream Baking Powder, and that the articles made with it are more wholesome and digestible than if made with any other kind. Test it by the most reliable and truthful test—in the oven.

Fourth of July Excursions.

Office General Ticket and Passenger Agent, Pennsylvania Company, No. 65 Clark street, Chicago, June 14th, 1879.—July 4th, 1879, will be celebrated by elegant excursions over the Pittsburgh, Fort Wayne and Chicago Railway. The Pennsylvania Company operating the above line, will sell excursion tickets on July 3d and 4th, good to return until and including July 5th, 1879, between stations on above road at reduced rates. These tickets will be good on all passenger trains, to and from such stations as they stop at regularly, according to schedule. Should there be a sufficient number from any one station to justify the company running special trains, arrangements can be made by applying to division superintendent, giving timely notice to prepare trains.

Haunted Me.

Debt, poverty and suffering haunted me for years, caused by a sick family and large bills for doctoring, which did no good. I was completely discouraged, until one year ago, by advice of my pastor, I procured Hop Bitters and commenced their use, and in one month we were all well, and none of us have been sick a day since; and I want to say to all poor men, you can keep your families well a year with Hop Bitters for less than one doctor's visit will cost.—A Workingman. 6,16-31

Excursion train for the Rome City basket meeting next Sunday, June 22d, leaves south depot at 9.00. Round trip, including steam boat ride, $1.00.

The most popular and fragrant Perfume of the day, "HACKMETACK." Try it. Sold by Dreier & Bro. 3

On Tuesday, the 24th, a grand excursion to Niagara via the Wabash and Canada Southern, will be given from all towns as far west as Lafayette. The fare for the round trip from this city is only $5. Train leaves here at 7.40 p. m. and arrives at the Falls the next morning at 9 o'clock. The tickets give two days at the Falls, two days extra at Put-in Bay, and one or two days at Toledo. Tickets to Toledo or Put-in-Bay, only $1.00 extra each. Sleepers at reduced rates will be run from this city, and excursion rates have been made at the Falls for hotel accommodations and carriage hire. This will be the most attractive excursion of the season.

Silks.

The superiority of our Silk Department over that of any other house in the city is a long-established fact. We have never before, however, been able to offer the same inducements in that department to purchasers that we now can.

Dress Silks

In all the new and desirable shades and designs.

Trimming Silks and Satins To match.

We have now in stock an unusually fine line of

American Silks,

In plain and brocaded patterns, so justly celebrated for their beauty of colorings and designs, and great durability.

Black Silks.

Besides an elegant assortment of black dress silks, we have recently received several pieces of

Mantilla Silks,

27 inches wide, and just the thing in every way for the purpose.

We have always made our Silk Department a specialty, and are satisfied with the lowest possible prices consistent with the best class of goods.

in black and colors and in all the new and tasteful designs, at exceedingly low prices.

Black Cashmeres.

In these goods we keep only the makes of established reputation for purity of dye and excellence of make and finish. We are offering these goods at prices that must command the attention of the closest buyers.

Mourning Goods.

We are now able to display everything desirable in this line, and at our well known low prices,

Suit Department.

We have many attractions in this department, and some special bargains well worth looking at. This department is especially interesting at this time.

Fringes.

We have an elegant line of silk and grass fringes in all colors, ranging in price from 40c to $4. The low prices that we have made on these goods have given them an extraordinary sale this season.

Questions and Answers.

Question—How is gold like charity? A.—Because it "covers a multitude of sins."

Q.—Does gold render people deaf, dumb and blind, and how?

A.—Yes; it makes them deaf to the whisperings of conscience as well as to the cry of misery; dumb when they should hear true testimony; and blind to vice and crime no less than to scenes of destitution. Solid silver and silver-plated ware, all plated ware, triple plated castors, card stands, knives, spoons and forks; 6 pieces of tea ware, $40; tea and dinner set, of China; 106 pieces of good crockery, only $10; students' lamps. THE RAILROADS.

Freights are reported light on the Wabash.

Four full coaches from the south were attached to the Fort Wayne train of I. O. O. F. excursionists this morning.

Richmond *Palladium:* A change, which will be found quite convenient, has taken place on the Grand Rapids and Indiana road. The train which leaves here at 11.20 p. m. will hereafter run through to Fort Wayne.

Wabash earnings for the first five months of this year were $1,658,858 against $1,886,818 during the corresponding period of last year—a decrease of $227,960 or 12.1 percent. The earnings for the month of May were $59,867 less than for May, 1878—a decrease of 15.2 percent.

Toledo *Commercial:* The new line of the Wabash from Bement to Chicago is assured. The road is already built and in running order to Strawn, and is graded much further. It was stated at Wabash headquarters yesterday that the contract for completing the road to Chicago had already been let.

Pittsburgh *Post:* Solomon W. Roberts has tendered his resignation as chief engineer of the North Pennsylvania road, in consequence of the line having been leased to the Pennsylvania and Reading company. The board of the former company has given Mr. Roberts a complimentary appointment as consulting engineer. He was at one time chief engineer of the old Ohio and Pennsylvania road, and subsequently filled the same position on the Fort Wayne road.

The articles of association of the Fort Wayne and Terre Haute Narrow Gauge Railroad Company provide that the board of directors shall make no contract for right-of-way nor for grading and bridging thereon, until an amount of money or its cash equivalent shall have been provided sufficient for its payment and satisfaction, nor create any debt against the company without the previous consent thereto in writing of every stockholder, except that they may exchange bonds of the company for rails, spikes, cars, locomotives, and cash sufficient to provide for such parts of the rights-of-way, road bed and bridges, and other parts of the superstructure and equipment of the road, as may not be otherwise provided for; and the payment of such bonds to an amount not to exceed $6,000 per mile of road, may be secured by mortgage of all the property and franchises of the company.

A tramp was arrested this morning; he was a young fellow about fifteen years old, hailing from Kendallville. He said he was tired of tramping and wanted to go home. Marshal Diehl took him in charge and will throw him off at Kendallville.

A WOW AND A WUMPUS.

How a Billiard Cue was Broken Over a Man's Head.

An Exciting Time Near the South Depot.

A lively little row occurred last evening on Calhoun street, near the corner of Brackenridge, where Wm. Ryan keeps a saloon, or where a saloon keeps Wm. Ryan. There is also connected with the same establishment a pool table—a concern where you can punch sixteen balls around until they all drop out of sight, at which juncture somebody has to pay ten cents for the fun. It was this same pool table that caused all the trouble. A stranger dropped into the saloon yesterday afternoon and wanted to play. Ryan accommodated him, and several games were played, and, as the stranger claims, were paid for. He was about leaving the place, when Ryan stopped him and demanded twenty cents in payment for two more games. The stranger insisted that the games had all been paid for and settled, but Ryan told him he couldn't leave until he paid twenty cents. The seranger pushed by Ryan to go on to the sidewalk, when Ryan struck him with a cue which he had in his hand. The stranger ran, and Ryan followed when the stranger turned and wrenched the cue from Ryan's hands, and returned the blows with interest, running him around the lamp post and out into the street. Ryan endeavored to pick up a brick bat to heave at his thumper, but by this time the bystanders interfered and separated the combatants. The claret flowed freely, the cue was broken on Ryn's head, and while the fight was in progress, a woman whose name is not known, who witnessed the fracas, fainted, and was carried into the Phelps' House. Ryan states, however, that it was the other fellow who struck first, that he was not expecting any trouble or anything of the kind, and the first intimation he had of a racket was when the stranger planted a blow on his head with a cue, almost knocking him down. Ryan says that the games were not settled for, and that he did not strike the first blow.

BREVITIES.

Quiet reigns supreme on the Pittsburgh.

The city was billed last night for the "Black Crook."

The commissioners are wrestling with ditch matters.

J. D. Cook will arrive in this city to-night or to-morrow.

J. D. Olds has sold his team to a Rochester, N. Y., man.

The county tax levy is sixty cents on each $100 valuation.

Benj. Hayes and Miss Emma Gates were married last evening.

Gus Lears, the popular sheriff of DeKalb county, is in the city to-day.

There are a number of candidates for Capt. Putnam's seat in the council.

There is considerable disatisfaction over the award of prizes at the baby show.

The funeral of Killian Baker's mother took place to-day from the cathedral.

Mrs. Barney O'Conor will leave for a visit to relatives at Mansfield, O., on Monday.

Joe N. Gardner has taken Charlie Stapleford's place in the City Band. He plays the tenor drum.

Dr. Omo will treat sick paupers in Springfield township, until they get well or die, for $90 per year.

The Randall steamer was pumping water out of the city well on the north side yesterday afternoon.

There are at present seventeen men and seven teams employed in making the Masonic Temple excavation.

The grass at Swinney Park is being harvested. Fred Briel does the heavy work and Director Matt Glynn gives orders.

Dr. Dinnen was taken sick on the train while returning from Rome City last evening. He ascribes his attack to drinking an excess of ice water.

The funeral of George Martin, who died yesterday morning, takes place to-morrow morning at 9 o'clock, as announced in the SENTINEL.

Wilson & Brother, the saw men have purchased A. H. Hamilton's lot at the corner of Calhoun and Lewis streets, and will erect a two story brick building thereon.

Fort Wayne is putting on metropolitan airs. A driving park and telephones are the latest, and now come the ladies with cigars in their mouths promenading the streets.

A supplement will be issued with the SENTINEL to-morrow which will contain a liberal installment of Ouida's great story of "Bebee," together with poetry, selected miscellany, etc.

The city engineer yesterday estimated the capacity of a Bloomingdale well, and found its flowing capacity to be about 130,000 gallons per twenty-four hours. The recent rains have, however, much to do with this.

Speaking of the baby show the Huntington *Democrat* predicts that "every baby that looks like 'dad-dy' will be put on exhibition. There will be many heart aches among the mothers. No one ever knew a mother who would acknowledge that 'the little brat' was any comparison to "my darling pet."

A. C. Trentman registered at the Burnet House, Cincinnati, on Wednesday.

S. F. Nirdlinger, of the Star clothing house, returned from the east today.

The Murray engine was yesterday afternoon sucking out a well in Bloomingdale.

Jerome Studor and Mary Rodfaugh will be married at the Cathedral Tuesday, June 24th.

Grand Master Cox and wife arrived in this city to-day, and are the guests of Mayor Zollinger.

Miss Maggie Hill, of Decatur, who has been visiting friends in this city, left for Chicago this morning.

Twenty delegates from New Haven accompanied the Odd Fellows' excursion to Rome City this morning.

Alf Irey is happy. He sold 500 bushels of new potatoes in one week, and got in first with peaches and corn.

The Fort Wayne City Band entertained a large crowd at the public square last evening by playing some choice selections.

The attention of the board of health is called to lot 15 Baker street. Is is almost as great a nuisance as the calaboose, if that is possible.

The committees appointed to make preparations for the forthcoming blow out on the Fourth of July are meeting with signal success in their respective duties.

A report of the condition of the Fort Wayne National Bank is published elsewhere. This bank is in prime condition, as will be seen from its excellent statement.

Fred Somers, an assistant conductor on John O'Rourke's gravel train, was lodged in the calaboose last night. Fred had indulged in a profusion of tanglefoot oil and got badly tangled up. Fred is married but his connubial felicity is not of the most heavenly kind and he occasionally gets a little off. The mayor told him to go and take his train out but if he ever got drink again he couldn't railroad for a term of thirty days.

Speaking of the fancy woman, who raised the racket at the Model Coffee Rooms the other day, the Logansport *Journal* says: "As the description and name fail to tally with any one known to have lived in this city, it is thought that the SENTINEL man must have been mistaken in naming Logansport as the scene of Madam McGrary's earlier career. At any rate Logansport is willing to divide the honor with some other city."

The Odd Fellows' excursion to Rome City this morning was a success. A finer day for a trip to that popular resort never dawned. At about 8.30 the City Band formed on the corner of Calhoun and Berry streets and marched toward the south depot, followed in irregular order by a large crowd of people. On arriving at the depot a still larger concourse was assembled. Everybody seemed to be setting out with a full determination of having a good time and unlimited enjoyment. Reineke's orchestra also accompanied the party. At about 9 o'clock a train of four full coaches pulled up to the depot, with passengers from Winchester, Ridgeville, Decatur and intermediate points. This was soon attached to the Fort Wayne train, and at 9.15 the whole train, consisting of ten well filled cars and a baggage car, pulled out *en route* for a day's fun.

A SUDDEN STOP

In the Celebrated Wohlfort-Lehman Case.

Judgment Given Plaintiff for $100.

The celebrated case of R. A. Wohlfort vs. the estate of Chas. Lehman, deceased, came up in the circuit court yesterday afternoon. It will be remembered that this was a suit to recover $10,000 on promissory notes alleged to have been executed by Lehman to the plaintiff in consideration of said plaintiff naming a child for Lehman. On the first trial the jury disagreed. The defense was that the notes were forged and no consideration was given for them. After a jury had been chosen this morning, Judge O'Rourke gave plaintiff judgment for $100 on the pleadings, the defendant to pay the costs. The case goes to the supreme court.

JUSTICES'.

BEFORE RYAN.

In the case of Peter Alter and John Trommel for assault and battery on John Lornigan, Justice Ryan heard the evidence and reserved his decision.

Rather Cheeky.

Yesterday a vender of the shining ware stopped in front of a house on Smith street, and, summoning the lady to the door, inquired if she had any rags for sale. On being answered in the negative, the man of "tin" asked if she had any money, and was answered in the affirmative, adding, however, that she had none for him. The saucy lad then told her she had better pay for that dish-pan she had bought of him last summer. When the lady informed him that she had only been a resident of Fort Wayne a short time, he saw his mistake and drove on.

Questions and Answers.

Question.—How is gold like charity?

A.—Because it "covers a multitude of sins."

Q.—Does gold render people deaf, dumb and blind, and how?

A.—Yes; it makes them deaf to the whisperings of conscience as well as to the cry of misery; dumb when they should hear true testimony; and blind to vice and crime no less than to scenes of destitution. THE RAILROADS.

Freights are reported light on the Wabash.

Four full coaches from the south were attached to the Fort Wayne train of I. O. O. F. excursionists this morning.

Richmond *Palladium:* A change, which will be found quite convenient, has taken place on the Grand Rapids and Indiana road. The train which leaves here at 11.20 p. m. will hereafter run through to Fort Wayne.

Wabash earnings for the first five months of this year were $1,658,858 against $1,886,818 during the corresponding period of last year—a decrease of $227,960 or 12.1 percent. The earnings for the month of May were $59,867 less than for May, 1878—a decrease of 15.2 percent.

Toledo *Commercial:* The new line of the Wabash from Bement to Chicago is assured. The road is already built and in running order to Strawn, and is graded much further. It was stated at Wabash headquarters yesterday that the contract for completing the road to Chicago had already been let.

Pittsburgh *Post:* Solomon W. Roberts has tendered his resignation as chief engineer of the North Pennsylvania road, in consequence of the line having been leased to the Pennsylvania and Reading company. The board of the former company has given Mr. Roberts a complimentary appointment as consulting engineer. He was at one time chief engineer of the old Ohio and Pennsylvania road, and subsequently filled the same position on the Fort Wayne road.

The articles of association of the Fort Wayne and Terre Haute Narrow Gauge Railroad Company provide that the board of directors shall make no contract for right-of-way nor for grading and bridging thereon, until an amount of money or its cash equivalent shall have been provided sufficient for its payment and satisfaction, nor create any debt against the company without the previous consent thereto in writing of every stockholder, except that they may exchange bonds of the company for rails, spikes, cars, locomotives, and cash sufficient to provide for such parts of the rights-of-way, road bed and bridges, and other parts of the superstructure and equipment of the road, as may not be otherwise provided for; and the payment of such bonds to an amount not to exceed $6,000 per mile of road, may be secured by mortgage of all the property and fanchises of the company.

A tramp was arrested this morning; he was a young fellow about fifteen years old, hailing from Kendallville. He said he was tired of tramping and wanted to go home. Marshal Diehl took him in charge and will throw him off at Kendallville.

A WOW AND A WUMPUS.

How a Billiard Cue was Broken Over a Man's Head.

An Exciting Time Near the South Depot.

A lively little row occurred last evening on Calhoun street, near the corner of Brackenridge, where Wm. Ryan keeps a saloon, or where a saloon keeps Wm. Ryan. There is also connected with the same establishment a pool table—a concern where you can punch sixteen balls around until they all drop out of sight, at which juncture somebody has to pay ten cents for the fun. It was this same pool table that caused all the trouble. A stranger dropped into the saloon yesterday afternoon and wanted to play. Ryan accommodated him, and several games were played, and, as the stranger claims, were paid for. He was about leaving the place, when Ryan stopped him and demanded twenty cents in payment for two more games. The stranger insisted that the games had all been paid for and settled, but Ryan told him he couldn't leave until he paid twenty cents. The seranger pushed by Ryan to go on to the sidewalk, when Ryan struck him with a cue which he had in his hand. The stranger ran, and Ryan followed when the stranger turned and wrenched the cue from Ryan's hands, and returned the blows with interest, running him around the lamp post and out into the street. Ryan endeavored to pick up a brick bat to heave at his thumper, but by this time the bystanders interfered and separated the combatants. The claret flowed freely, the cue was broken on Ryrn's head, and while the fight was in progress, a woman whose name is not known, who witnessed the fracas, fainted, and was carried into the Phelps' House. Ryan states, however, that it was the other fellow who struck first, that he was not expecting any trouble or anything of the kind, and the first intimation he had of a racket was when the stranger planted a blow on his head with a cue, almost knocking him down. Ryan says that the games were not settled for, and that he did not strike the first blow.

BREVITIES.

Quiet reigns supreme on the Pittsburgh.

The city was billed last night for the "Black Crook."

The commissioners are wrestling with ditch matters.

There are at present seventeen men and seven teams employed in making the Masonic Temple excavation.

The grass at Swinney Park is being harvested. Fred Briel does the heavy work and Director Matt Glynn gives orders.

Dr. Dinnen was taken sick on the train while returning from Rome City last evening. He ascribes his attack to drinking an excess of ice water.

The funeral of George Martin, who died yesterday morning, takes place to-morrow morning at 9 o'clock, as announced in the SENTINEL.

Wilson & Brother, the saw men have purchased A. H. Hamilton's lot at the corner of Calhoun ond Lewis streets, and will erect a two story brick building thereon.

Fort Wayne is putting on metropolitan airs. A driving park and telephones are the latest, and now come the ladies with cigars in their mouths promenading the streets.

A supplement will be issued with the SENTINEL to-morrow which will contain a liberal installment of Ouida's great story of "Bebee," together with poetry, selected miscellany, etc.

The city engineer yesterday estimated the capacity of a Bloomingdale well, and found its flowing capacity to be about 130,000 gallons per twenty-four hours. The recent rains have, however, much to do with this.

Speaking of the baby show the Huntington *Democrat* predicts that "every baby that looks like 'dad-da' will be put on exhibition. There will be many heart aches among the mothers. No one ever knew a mother who would acknowledge that 'the little brat' was any comparison to "my darling pet.'"

A. C. Trentman registered at the Burnet House, Cincinnati, on Wednesday.

S. F. Nirdlinger, of the Star clothing house, returned from the east to-day.

The Murray engine was yesterday afternoon sucking out a well in Bloomingdale.

Jerome Studor and Mary Rodflaugh will be married at the Cathedral Tuesday, June 24th.

Fred Somers, an assistant conductor on John O'Rourke's gravel train, was lodged in the calaboose last night. Fred had indulged in a profusion of tanglefoot oil and got badly tangled up. Fred is married but his connubial felicity is not of the most heavenly kind and he occasionally gets a little off. The mayor told him to go and take his train out but if he ever got drunk again he couldn't railroad for a term of thirty days.

Speaking of the fancy woman, who raised the racket at the Model Coffee Rooms the other day, the Logansport *Journal* says: "As the description and name fail to tally with any one known to have lived in this city, it is thought that the SENTINEL man must have been mistaken in naming Logansport as the scene of Madam McCrary's earlier career. At any rate Logansport is willing to divide the honor with some other city."

The Odd Fellows' excursion to Rome City this morning was a success. A finer day for a trip to that popular resort never dawned. At about 8.30 the City Band formed on the corner of Calhoun and Berry streets and marched toward the south depot, followed in irregular order by a large crowd of people. On ariving at the depot a still larger concourse was assembled. Everybody seemed to be setting out with a full determination of having a good time and unlimited enjoyment. Reincke's orchestra also accompanied the party. At about 9 o'clock a train of four full coaches pulled up to the depot, with passengers from Winchester, Ridgeville, Decatur and intermediate points. This was soon attached to the Fort Wayne train, and at 9.15 the whole train, consisting of ten well filled cars and a baggage car, pulled out *en route* for a day's fun.

A SUDDEN STOP

In the Celebrated Wohlfort-Lehman Case.

Judgment Given Plaintiff for $100.

The celebrated case of R. A. Wohlfort vs. the estate of Chas. Lehman, deceased, came up in the circuit court yesterday afternoon. It will be remembefed that this was a suit to recover $10,000 on promissory notes alleged to have been executed by Lehman to the plaintiff in consideration of said plaintiff naming a child for Lehman. On the first trial the jury disagreed. The defense was that the notes were forged and no consideration was given for them. After a jury had been chosen this morning, Judge O'Rourke gave plaintiff judgment for $100 on the pleadings, the defendant to pay the costs. The case goes to the supreme court.

JUSTICES'.

BEFORE RYAN.

In the case of Peter Alter and John Tremmel for assault and battery on John Lornigan, Justice Ryan heard the evidence and reserved his decision.

Rather Cheeky.

Yesterday a vender of the shining ware stopped in front of a house on Smith street, and, summoning the lady to the door, inquired if she had any rags for sale. On being answered in the negative, the man of "tin" asked if she had any money, and was answered in the affirmative, adding, however, that she had none for him. The saucy lad then told her she had better pay for that dish-pan she had bought of him last summer. When the lady informed him that she had only been a resident of Fort Wayne a short time, he saw his mistake and drove on.
